MILLER  
BENJAMIN

**MA**

**Royal College of Art | Intelligent Mobility (Vehicles)**  
London — United Kingdom

| 09.2021 — Present

Currently finishing my final term at the RCA. Won first term project in collaboration with Lexus and ED2 where I investigated the future of luxury in a European context. Second term project looked at the cday-trip experience and how to get people out and exploring nature; also won the Magna Bold Perspective Challenge 2022.

**SAIC Design | Competition Intern**  
London — United Kingdom

| 08.2022 — 09.2022

Competition internship where I am still currently 1 or 3 finalists. I investigated gamification and how it can bring people together and explore new cities.

**Specialized Bicycle Components | Industrial Designer**  
Morgan Hill — California, USA

| 02.2019 — 09.2021

One of the worlds largest bicycle, components and accessories companies. Primarily worked in road, fitness and electric bicycles categories to improve the cycling experience for cyclist across the world.

- Strong emphasis on design details, engineering and functionality
- Close collaboration with overseas development teams to discover new and innovative manufacturing techniques
- Focus on composites and strength-to-weight optimization
- Strong concern to ergonomics, fit, and usability as well as aesthetics.
- Create numerous successful products that are in production

**KISKA GmbH | Junior Designer**  
Salzburg — Austria

| 10.2016 — 01.2019

Independent design studio that works across various industries and creative fields with a focus on building desirable products and brands.

- Led generative design initiatives to attract new clients and build new processes.
  - Product research and analysis. Competitive benchmarking.
  - Idea generation through sketching, mock-up and CAD development
  - Concept refinement in 2D and 3D
  - Ergonomic studies through physical and VR mock-ups
  - Worked with multidisciplinary teams and stake-holders
- Client projects: Husqvarna, Bosch, KTM, Rika, Magura, Siteco, Adidas, Arri

**BA**

**Carleton University | Bachelors of Industrial Design**  
Ottawa — Canada

| 09.2010 — 04.2016

Thesis project in collaboration with Herman Miller and the Ottawa Hospital Network. Worked with various healthcare professions to design a new supply storage and administration system in the ICU environment

**SRAM LLC | Industrial Design Intern**  
Chicago — Illinois, USA

| 10.2014 — 09.2015
